HOW TO PREVENT PNEUMONIA. A Man in At this time of the year a cold is very easily contracted, and if left to run its course without the aid of some reliable cough medicine is liable to result in that dread disease, pneumonia. We know of no better remedy to cure a cough or cold than Chamberlain's Cough Remedy. We have used it quite extensively and it has always given satisfaction.-Olagah, Ind. Ter. Chief.

This is the only remedy that is known to be a certain preventive of pneumonia. Among the many thousands who have used it for cold and la grippe, we have never yet learned of a single case having resulted in pneumonia. Persons who have weak lungs or who have reason to fear an attack of penumonia, should keep the remedy at hand. For sale by all druggusts and dealers. Benson, Smith & Co., wholesale agents for H. Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P, and B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotics cloth, paint it well or both sides; hay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and dry, and apply a paste of P. &1B. Paint and Portland Coment.
